PROFESSIONAL SUMMARY

Engineering leader with 13+ years of experience delivering mobile, desktop, and platform products across iOS, macOS, IoT, and connected-device ecosystems. Proven track record of leading technical initiatives, driving architecture decisions, partnering with Product Management, and delivering large-scale consumer products. Experienced in technical leadership, roadmap planning, cross-functional collaboration, mentoring, and execution of complex software projects.

LEADERSHIP HIGHLIGHTS

- Owner of SmartThings Settings and MapView domains within SmartThings iOS.
- Technical Lead for Samsung DeX for PC, collaborating across macOS, Android, Windows, QA, and Product teams.
- Led architecture discussions, technical planning, and delivery execution for multiple large-scale products.
- Partnered directly with Product Management on roadmap planning, feature prioritization, and release strategy.
- Mentored engineers on software architecture, mobile development, code quality, and engineering best practices.
- Participated in technical interviews, onboarding, knowledge sharing, and engineering growth initiatives.
- Experienced in cross-functional collaboration with Product, Design, QA, platform teams, and executive stakeholders.

PROFESSIONAL EXPERIENCE

Samsung R&D Institute Bangladesh Ltd.

Staff Engineer | June 2013 – Present

SmartThings iOS (2023 – Present)

- Own the Settings and MapView domains within SmartThings iOS, a platform serving 62M+ active users worldwide.
- Drive technical planning, implementation strategy, architecture discussions, and delivery execution across multiple releases.
- Partner with Product, QA, Design, and platform teams to align business requirements with technical solutions.
- Lead technical decision-making for SmartThings MapView and Settings-related initiatives.
- Drive migration strategy for SmartThings MapView rendering architecture from Unity to Godot Engine.
- Coordinate technical discussions, implementation planning, and rollout activities across multiple stakeholders.
- Support engineers through technical mentoring, architecture reviews, and implementation guidance.
- Investigate and resolve high-impact customer issues and production concerns.

Samsung DeX for PC (2019 – 2023)

Technical Lead (macOS)

- Led architecture and development of Samsung DeX for macOS, contributing to a platform with 7M+ downloads and 750K+ monthly active users.
- Partnered directly with Product Management to define feature roadmaps, architecture strategy, and release planning.
- Coordinated delivery of major capabilities across macOS, Android, and Windows teams.
- Designed architecture and workflows for file transfer, clipboard sharing, wireless communication, device connectivity, and cross-device experiences.
- Managed release planning, release execution, risk mitigation, and stakeholder communication activities.
- Conducted technical reviews and mentored engineers throughout project execution.

- Developed proof-of-concept solutions and presented technical proposals to Samsung leadership and stakeholders.

Platform & Framework Engineering (2013 – 2019)

- Designed and implemented mobile UI automation frameworks supporting Android, Tizen, and iOS ecosystems.
- Led development of automation tooling and engineering infrastructure to improve software quality and testing efficiency.
- Contributed to IoTivity platform initiatives supporting interoperability across connected-device ecosystems.
- Participated in framework and SDK development used across multiple products and teams.
- Collaborated with engineers across organizations to support platform adoption and integration efforts.

RTC Hubs Limited

Junior Programmer (iOS Developer) | September 2012 – June 2013

- Developed and maintained multiple iOS applications for iPhone and iPad.
- Delivered camera and productivity applications using Objective-C and [GPUImage](#).
- Contributed to one of the company's highest-performing mobile applications.

CORE COMPETENCIES

Leadership

Technical Leadership, Engineering Execution, Mentoring, Cross-functional Collaboration, Stakeholder Management, Technical Planning, Roadmap Planning, Release Management

Architecture & Delivery

Mobile Architecture, Mobile Platform Engineering, System Design, Technical Decision Making, Software Design, Delivery Management, Risk Management

Mobile Technologies

Swift, SwiftUI, UIKit, Combine, Swift Concurrency, MVVM, MVVM-C

Tools & Processes

Git, GitHub Actions, Jenkins, CI/CD, Agile/Scrum, Performance Optimization

ACHIEVEMENTS

- Owner of SmartThings Settings and MapView domains within a platform serving 62M+ active users worldwide.
- Technical Lead for Samsung DeX macOS platform supporting 7M+ downloads and 750K+ monthly active users.
- Led application-side migration strategy for SmartThings MapView rendering architecture from Unity to Godot Engine.
- Achieved Professional Level (Top 20%) in Samsung SW Certificate Test.
- Received Star Employee of the Month (January 2026).

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science & Engineering
Rajshahi University of Engineering & Technology (RUET) | 2008 – 2012
